

Merge Rail Frameless Glass Media Walls
w/Sliding Panels

Merge Rail Frameless Glass Media Walls w/Sliding Panels

- > Merge Rail Frameless Glass Media Walls along with your video display create a presentation system that can handle just about every type of media in almost any environment.
- > Merge Rail Frameless Glass Media Walls with Sliding Panels, combine wall mounted frameless glass markerboards and our unique Rail System to create a two level presentation wall. Sliding Panels hang and slide in the top track and hide the video display for dramatic effect.
- > Rails are designed to mount directly to the wall. Rails are 1.5" square Anodized Aluminum. And can be powder-coated in black or white.
- > Merge Rail Frameless Glass Media Walls are ideal for large classrooms and conference rooms. Back painted glass markerboards can be magnetic or non-magnetic. Sliding Panels can be glass, porcelain enameled steel or Acousitcor. *Can be used with or without a monitor.* Walls must be able to allow for a recessed monitor.

Overall Rail dimensions 55 1/8" H x any length

Max Panel dimensions 58 1/2" H x 31 1/2" W

Custom sizes also available.

Video Displays not included.
