forward thinking solutions

glass

If you want to create the optimum work environment, appearances matter. A good-looking, inviting environment helps your people do their best day after day, and it makes a positive statement to all your other stakeholders. The clean, contemporary look of coronaVISUAL glassboards will help you create that kind of environment.

No other presentation boards give you so much freedom to shape your surroundings. They go on the wall or stand free on casters. Glass can be combined with other surface materials for writing, pinning or attaching with magnets. We do custom cutouts and graphics. Background colors are virtually unlimited, and we can even match your paint samples. No matter what kind of messages are on the presentation board, the board sends a message of its own. Glassboards from coronaVISUAL can help you send the right one.
