

Modular Wall Inserts

Modular Wall Inserts

- > Our Modular Wall Panel Inserts are designed to fit your Modular Wall Installations. Available in CPS Porcelain Enamel Markerboard or Chalkboard panels as well as Glassboard Panels.
- > The Porcelain Enamel Boards come in 3' 7" wide by 5' 5/8" high panels. All hardware is concealed and with our spline joint, these inserts create a virtual seamless writing surface across the entire modular wall. The surface is easy to write on and easy to read. They retain magnets and are impact resistant and scratch proof ensuring maximum durability.
- > The Glassboards come in 3' 7" wide by 5' 5/8" high panels with concealed hardware. They can be magnetic or non-magnetic. Glassboard Panels are available in three glass styles: Basic (green tint), Classic (Starphire-pure white) or Satin (Starphire, non-glare). And as with all Glassboards, they are available in almost any color and custom graphics are also applicable.

Varieties and Dimensions:

Markerboards or Chalkboards in panels up to 3' 7" w x 5' 5/8" h.

Glassboard panels up to 3' 7" w x 5' 5/8" h.

For custom sizes or pricing, contact Corona Group.
