

Visual Presentation Products
On the Floor
2022

If you want to create the optimum work environment, appearances matter. A good-looking, inviting environment helps your people do their best day after day, and it makes a positive statement to all your other stakeholders. The clean, contemporary look of Corona Group On the Floor visual presentation mobile boards and divider systems, will help you create that kind of environment.

No other presentation boards give you so much freedom to shape your surroundings. Specific materials can be combined with other surface materials for writing, pinning or attaching with magnets. We do custom cutouts and graphics. Background glass colors are virtually unlimited, and we can even match your paint samples.

No matter what kind of messages are on the presentation board, the board sends a message of its own. Presentation Boards from Corona Group can help you send the right one.

glass
