

GO² Basic Sit-Stand WorkCenter

GO² Basic Sit-Stand Workcenter

> The ability to adjust your work posture from sitting to standing throughout the day is an integral part of a true ergonomic work environment. The GO² Basic is an economical way to achieve that part of an ergonomic environment. Whether in an corporate office setting, an open office concept, a healthcare environment or anywhere the goal is to add increased productivity within a budget, the GO² Basic is the solution.

> The GO² Basic Workcenter is available in a manual height-adjustment model or in a motorized version.
