forward thinking solutions

divider systems

Workspaces influence the work of the people who use them. A good one will foster innovation and productivity. A poor one will be a drag on those things. Dividers from CoronaVisual combine marker boards, tackable boards, and acoustic panels into architectural elements that open and close off areas.

They empower your people by helping them to focus, capture and share ideas more efficiently. They can make your workspaces work harder. Here are some of the ways they do it.

Intersection Divider System

Because Intersection dividers aren't bound to a wall, both sides are available as work surfaces. Shown with Double-Sided Glass, Mesh Inserts and Black Aluminum Frame.

Intersection Media

Intersection dividers are available with glass or porcelain-steel marker boards, tackable boards, acoustic panels, and can house digital displays or AV equipment.

Shown with Glassboards in Satin Non-Glare Glass.

Intersection Divider System

Panels are available in sizes up to 4 by 10 feet.

Shown with Double-Sided Porcelain Markerboards and Black Aluminum Frame.

Intersection Flex

Wing Panels are hinged to the main center spine panel and can be rotated into various positions. Shown with Double-Sided Porcelain Markerboards, Acousticor Felt Panels, Mesh Inserts and Satin Anodized Frame.

Intersection Slide

Top Hung Sliding Panels open and close off areas and make your space more versatile. Sliding dividers shown with Double-Sided Porcelain, Mesh Inserts, Fabric Tackable Panels and Black Aluminum Frame.

Intersection Weave

Dividers can be customized with a variety of pliable materials such as Wood, Metal, Felt and Acrylic inserts to define and enhance a space. Shown with Wood Panel Inserts and Satin Anodized Aluminum Frame.

Intersection Slide

Top Hung Sliding Panels give you multiple layers of presentation surface. Shown with Porcelain Steel Markerboards, Acousticor Panels, Mesh Inserts and Black Aluminum Frame.

Intersection Divider System

Good-looking dividers help to create an inviting workspace and make a positive statement about your organization. Shown with Double-Sided Porcelain Steel Markerboards and Satin Anodized Aluminum Frame.

VIP+ Sliding Wall Panel System

With sliding dividers that reach from floor to ceiling, you get open space when you want, privacy and quiet when you want. Top Hung System
Shown with Double-Sided Sliding Porcelain Markerboards and Acousticor Felt Panels.

VIP+ Sliding Wall Panel System

VIP+ panels make the "in-between" spaces into flexible communication tools. Shown with Triple Track Bottom Rolling, Double-Sided Sliding Porcelain Markerboards and Tackable Fabric Panels.

VIP+ Sliding Wall Panel System

Glass panels are available in hundreds of background colors. We can even match your paint samples or add custom graphics. Shown with Triple Track Top Hung Two-Sided Glass Markerboard Panels in designer specified color.

VIP+ Sliding Wall Panel System

VIP+ Sliding Wall Panels turn exterior glass walls into functional working surfaces. Shown with dual track Bottom Rolling Porcelain Markerboards and Customized Acousticor Sound Absorbing Panels.

VIP+ Sliding Wall Panel System

We have the experience to help you use our dividers in the way that best enhances your workflow, space, time and productivity. Available as Top Hung or Bottom Rolling Systems. Shown with Sliding Porcelain Markerboards.
