VIP Mobile Magnetic Glassboard
VIP Mobile Magnetic Glassboard

Our designers have created a truly unique visual presentation product for the future.

The VIP Mobile Glassboard is a highly mobile, double-sided, magnetic, dry marker glassboard. It combines twice the writing surface with the ability to “pin” notices and announcements using magnets, and a safe, stable base on locking casters.

The VIP Mobile Magnetic Glassboard can be nested for storage. And the mobility allows for various linear arrangements like circles, semi-circles, straight lines, etc. This means you can create huddle spaces for group study without totally blocking out other areas of the room.

The VIP Mobile Magnetic Glassboard has the inherent ease of maintenance associated with glass and the minimal open frame allows for easy cleaning and air flow.
