

VIP+ Sliding Wall Panel System

VIP+ Series-On the Floor Sliding Wall Panel System

- > The VIP+ Series provides an elegant solution to separate space while providing a double-sided collaboration environment.
- > The floor to ceiling panels utilize double-sided porcelain or glass markerboards and can be combined with fabric or acoustic panels.
- > Anchored in the ceiling with a guide track and to the floor with roller tracks, the VIP+ Sliding Panel System provides a distinctive double-sided divider creating flexible meeting spaces, work stations, group activity spaces as well as presentation environments.

Dimensions:

Panels widths up to 4'
Panel heights up to 12'
Custom sizes are also available.

- > VIP+ Series utilizes matte anodized aluminum frames. Can combine up to 3 tracks. Comes with soft close mechanisms. And can be installed on the interior or perimeter of a space.
- > Contact coronaVISUAL for fabric options and other usable materials; as well as pricing information.
